

## Remote Medical Assistance

If you need remote medical assistance in Spain, especially for non-emergency situations or general health inquiries, there are several options available:

Health Hotline: 061

The Health Hotline (Línea de Salud) in Spain is accessible by dialing **061**. This service provides medical advice and information. It's particularly useful for non-urgent health concerns or questions.

eConsulta:

Some regions in Spain offer online consultation services. eConsulta allows users to communicate with healthcare professionals through a secure online platform. Check if this service is available in your region.

Telemedicine Services:

Telemedicine services have become increasingly popular. Some private healthcare providers and insurance companies offer telehealth consultations, allowing you to speak with a healthcare professional remotely using video calls or phone calls.

Local Health Centers:

You can contact your local health center (Centro de Salud) for advice. They may provide information over the phone or direct you to the appropriate services.

Private Medical Services:

Private hospitals and clinics in Spain may offer telehealth services or have health professionals available for remote consultations. Check with private healthcare providers in your area.

Emergency Services for Urgent Cases:

If you have a medical emergency or require urgent assistance, it's important to dial the emergency services number 112. Emergency operators can guide you on the necessary steps to take and connect you with the appropriate services.

When seeking remote medical assistance, make sure to provide clear and accurate information about your symptoms or concerns. For more personalized advice, a telehealth consultation with a healthcare professional can be valuable.

Keep in mind that the availability of specific services may vary depending on the region within Spain, and it's a good idea to check with local healthcare authorities or your healthcare provider for the most up-to-date information and options available to you.
